

After Action Care Program

SNAP Contact Information
Duty Phone: 361-6143/068-27-6143
Email: SNAP@benelux.army.mil

PURPOSE OF THE PROGRAM:

- To provide quick response to burglaries (less than 24 hours)
- To provide feedback and resources to victims
- To ensure sense of safety to victims
- To act as a liaison between military police and victims
- To answer questions and provide information concerning home security
- To record instances of burglaries in order to prevent future instances

HOW THE PROGRAM WORKS:

Once burglary is reported or made known to the Chievres MP Station, After Care Action will immediately be notified.

Within 24 hours, SNAP and/or Physical Security will contact victims and set up a time in the next three business days to come and visit the residence.

SNAP and Physical Security (the After Action Care Team) will go to the victim's residence together. Physical Security will do security inspection of the house and do a report. SNAP will also discuss home safety and security practices with residents.

Intent is to address any immediate concerns the residents may have, and to help soothe victims after a burglary.

AFTER INITIAL VISIT/FOLLOW-UP:

Physical Security will do a report on the security of a residence, and will forward any recommended security changes to DPW and/or landlord

NOTE: The Chievres After Action Care Program was created to service residents in the off-post US communities, GHRP houses, and residents in the NSA/Brussels area, Schinnen area ONLY. Any residents of houses rented through SHAPE International Housing will be contacted and notified of the services available through the SHAPE After Care Program.
